If you or someone you care for has been diagnosed with cancer, and you'd like to talk on-line to people with similar experiences, the Cancer Society can help.

It doesn't matter where you live in New Zealand – all you need is access to the internet.

CancerChat NZ can be used by anyone with internet access who has a question or information to share anonymously with other CancerChat NZ users.

All posted messages are viewed by our moderators to ensure that CancerChat NZ is provided as a supportive communication forum.
