

*"The Cancer Society is a sanctuary for me; a place where I can be normal, and experience inspiring activities and practical support.*

*My needs grew and changed markedly throughout my breast cancer journey. Fortunately, the Cancer Society provided a suite of options of programmes and support - which reflected and responded to me and my partner's changing needs - from diagnosis, treatment and beyond.*

*I am back working full time now and am nearly back to the new normal. I am damned lucky to have received such targeted support.*

*I don't know what I would have done without it. A huge thanks to the Cancer Society and to anyone going through something like this, there is help there!"*
